Dalkia sells its activities in Russia

Dalkia, an EDF subsidiary providing specialist energy services, announces the full disposal of its activities in Russia to local management.

Dalkia has been present in Russia since 2016 where it carried out limited business amounting to less than 5 million euros in annual turnover. Dalkia provided essential services, such as compressed air production or wastewater treatment on behalf of industrial companies, mainly of French origin.

About Dalkia

Dalkia Group: Working with you to step up your energy transition.

Dalkia, a subsidiary of EDF Group, supports its customers in their energy and digital transformations through its two business lines: the development of local renewable energies and energy savings. Dalkia offers its customers tailored solutions for each building, each city, each local authority, each region and each industrial site to help them rise to the challenge of the energy transition and make them smarter.
